

# OZSAN ENZYMATIC SANITISER AND CLEANER

**Commercial Grade Disinfectant**

## Clean and Sanitise in One Step

### Kills COVID-19

For cleaning and sanitising of all hard non-porous surfaces such as floors, counter tops, cupboards, fridges, windows, banisters and door furniture. Ideal disinfectant cleaner for high traffic areas. Also excellent for cleaning air conditioning filters and heat exchange coils.

### Great for High Traffic Areas

Suitable for simultaneous cleaning and sanitising of any hard non-porous surface, for example:

- Floors
- Counter tops
- Handrails and banisters
- Kitchen appliances
- Bathroom surfaces
- Lifts
- Door furniture
- Windows

**OzSan Enzymatic Sanitiser and Cleaner** is a powerful cleaner and sanitiser for domestic and commercial use. Suitable for any hard non-porous surface. A commercial grade disinfectant that uses enzymes to rapidly digest biofilm, dirt, grease and organic deposits. Kills Covid-19.

Highly concentrated. Mix 50:1 with water and apply to kitchen and bathroom surfaces with a spray bottle, or for floors with a bucket and mop.

Active substance: Benzalkonium chloride 0.98% w/w.

Registered with the Therapeutic Goods Administration ARTG No. 371654
