

COIL DEFENDER

B-Sure Micro Leak Detector

B-Sure is a highly viscose micro leak detector capable of identifying the smallest leaks in HVAC and Refrigeration Coils.

FEATURES

- NSF registered Food safe
- Non Corrosive
- Compatible with any gas
- Micro channel coil compatible

BENEFITS

- Easy to use
- Compatible with all coil designs including micro channel
- Biodegradable and eco friendly
- Can identify small micro leaks within 5 minutes

COIL DEFENDER Related Products

Coil Protect is a product applied to cooling and heating coils to stop mould and bacteria growing on the coils. It is applied to clean, dry coils and leaves a thin surface coating which stops microbial growth. The coating is applied every 12 months.

Pan Tablets are a slow release anti-microbial which are placed in the evaporator tray to stop slime growth blocking drain lines. The tablet lasts for 12 months and is replaced when the Coil Protect is reapplied.

Enzyme Coil Cleaner is a safe environmentally friendly concentrated cleaner specially formulated for HVAC and Refrigeration Coils. The formulation digests oil, dirt and biological contamination and can be safely washed down the drain

DIRECTIONS FOR USE

- Turn off or disconnect all power.
- Adjust nozzle to coat all surfaces with a flat liquid free of bubbles or foam.
- Focus on threaded connections, joints, and valves.
- Bubbles will form instantly for most leaks. Wait 5-30 minutes. Micro leaks will develop and appear as white foam cocoons or tiny bubble clusters. Place unit back into operation and check for vibration leaks.
- Wipe or rinse surfaces if water is available.
